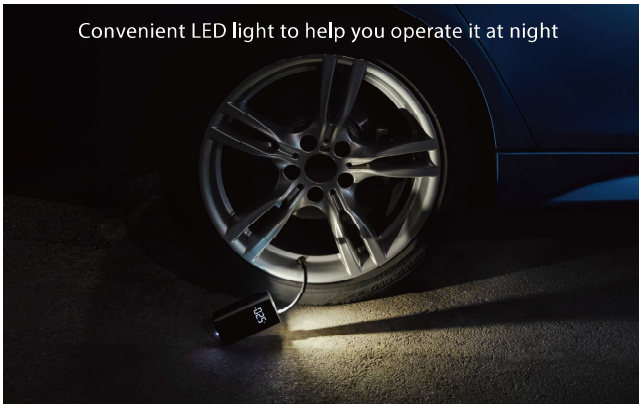
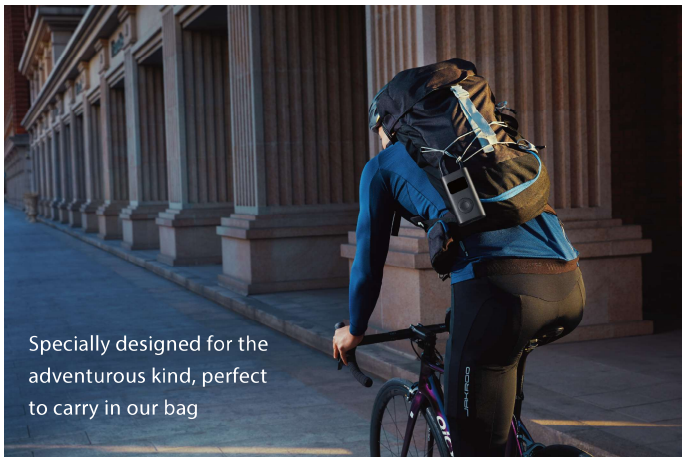
Mi Portable Electric Air Compressor

- Very simple operation: just preset the kind of vehicle or object to pump (bicycle, car, motorcycle, balls), fine tune the pressure level desired if needed and press the button; the compressor will inflate the tire and stop automatically once that level is reached. No more fear to put too little or too much pressure in the tire.
- Digital display to select the preset parameters and see the progress of air filling.
- Digital tire pressure detection: you can use the compressor to quickly check air pressure in your tires.
- High-precision mechanism that can be easily pressurized up to 150psi to meet the inflating pressure required for most kinds of tires, even professional racing bicycles.
- 18650 lithium battery with 2000 mAh capacity and excellent endurance: One full charge can inflate about 8 road bicycle tires, at a speed of 3 minutes per tire or inflate 5 car tires from 2.0 bar to 2.5 bar at a speed of about 6 minutes per tire.
- LED lighting incorporated helps you operate at night.
- Micro USB charging port.
- Thoroughly tested to ensure maximum durability and safety: Overpressure function protection test, air pipe tensile strength test, compression test, electrical strength test, air pipe hydrostatic test, high/low temperature charging test, free drop test, movement durability test.
- Small and compact design, put it in any compartment in your car or take it in your backpack while you go cycling, it is always better to be prepared for any circumstance.

Mi Portable Electric Air Compressor





Specifications

Product model: MJCQB01QJ
Storage temperature: - 10˚C- 45˚C
Product dimensions: without pipe 124x71x45.3mm
Charging interface: micro-usb
Charging pressure range: 0.2 ~ 10.3bar / 3 ~ 150psi
Charging parameter: 5V 2A
Charging time: less than 3 hours

Battery capacity: 2000mAh (14.8wh)
Sensor accuracy: 2psi
Working noise: <80dB at a distance of 1m
Working temperature: charging: 0 ~ 45˚C
Air pipe dimensions: 180mm, including air nozzle adaptor (without thread)

Contents of the box: Mi Portable Electric Air Compressor (Schrader valve by default), Presta valve adapter, needle valve adapter, charging cable, user manual
